Letter of William Newton, Esq., addressed to Protection Engine Co., No. 5, upon his retiring from their command: tendered December 14, 1858.

NEWPORT, DEC. 7, 1858.

To the Officers and Members of
PROTECTION CO. NO. 5.

GENTLEMEN:

Owing to my present indisposition, I feel it to be my duty to retire from your command, at least for a season, perhaps for ever. You will recollect that about one year since—December 17, 1857, I wrote you a lengthy communication, stating that I had come to the conclusion to withdraw from your command, and advising that the Company be called together, in order that you may be the better prepared to fill the office of Foreman, or any other office which may in the line of promotion become vacant." But your renewed kindness at that time completely overpowered my better judgment, and by the advice of your Committee I consented to serve you one more year. It is not perhaps now necessary that I should go into any long explanation in regard to my present and future plans; nor need I say, or can I know, how much, or how little, of my time I may devote hereafter to our Fire Department, suffice it now to say, that my past conduct with all of my imperfections, may, in a measure, show that I am in favor of encouraging the Firemen and the Fire Department.

I am still in favor of continuing the same uniform system as heretofore, and would advise that you should choose such officers as will continue to keep up our original organization. But I would not now be understood to favor extravagant expenditures, or some of the excesses in which I have sometimes permitted you to participate, even when you have endeavored to do your part. In the choice of your officers I should prefer not to be consulted as to who may command, and who may fill the various important offices. It cannot be expected in my present state of health, that I should be present at your Annual Meeting, now so close at hand, and I would advise that you consult the honorary members in the choice of your officers, as they have a voice in the election of officers by virtue of our Constitution and by-laws. And I would especially recommend that you have the advice of our much respected friend, the Ex-Foreman, who has always stood by us since he retired from the command of the Company in the year 1847. He has always nobly stood up for "our rights," and has freely expressed himself publicly in your behalf.

The Brass Trumpet, which I purchased some years since expressly for the purpose of being always with the machine in case of fire, I now desire may be attached to the machine in such a manner as to "be always ready" when wanted; and whoever may be elected as your Foreman in my place, will as I hope, use that trumpet, unless he may have one more suited to his taste. But, I would suggest, that the Brass Trumpet now above referred to, should at least be put in order and allowed to occupy a place in one of the buckets, unless some more suitable place can be found; to be used when it may be wanted, or, when the commanding officer may have left his own Trumpet at home.

It was not my intention, in this, my final resignation as your commanding officer, to write you even as much as I have written, but my feelings prompted me to say on paper what I have written, and perhaps more.

In concluding this communication to you I think I need not repeat what I wrote in my letter to you nearly one year since. If you should now prefer it, you are at liberty to defer the choice of Foreman as well as all other vacancies that may occur, until the regular Annual Meeting—which should take place on the last Monday in the present month—when, I trust you will be ready to elect such officers as will conduce to the interest of the Company and the future welfare of the Fire Department of the city.

Yours truly and faithfully,

WILLIAM NEWTON.

Extracts from letter dated Dec. 17, 1857.

"I do not feel it is true that I am an old worn-out Fireman, but at the same time, I do think that others should take their turns, and share in the hours, pleasures and responsibilities of office. Somebody must command—one cannot always.

My devotion will ever be to my "first love," and you will hearer, as formerly, find me ready to co-operate with you in all measures calculated to promote and advance the best interests and welfare of the Company; and when duty calls and the alarm is given, you will find me with you at all times when it is possible, running "widder machine." I have now been connected with the Company as an officer for ten years, and for the past four years as your foreman. During the whole of this time I have had officers and men to command, doing the greatest credit to themselves and to the Fire Department of this city.

PROTECTOR HALL,

Newport, R. I., Dec. 27, 1858.

WILLIAM NEWTON, Esq.

Dear Sir:—At a meeting of PROTECTION COMPANY, No. 5, held this evening, the following Preamble and Resolutions offered by Thomas Coggeshall, Esq., were unanimously passed:

WHEREAS, At the last meeting of this Company, communication was received from William Newton, Esq., Foreman, tendering his resignation as Foreman, to take effect at the Annual Meeting, and

WHEREAS, Said communication having been under consideration, it is hereby

RESOLVED, That in accepting the resignation of William Newton Esq., as Foreman, this Company unite in expressing deep regret that we are separating from a TRUE MAN, from one, to whom the Fire Department of our city may justly say—"The pioneer of our well arranged and effective organization has withdrawn from us," and to whom we each and all are under many and lasting obligations.

True copy—attest:

THOMAS P. MESSER, Clerk.

At the Annual Meeting of Protection Company No. 5, the following officers were elected for the year ensuing:

Foreman—John C. Stoddard.
1st Assistant—Solomon T. Hubbard.
2d do.—William A. Vickery.

Orderly—Lewis L. Simons.
Clerk—Thomas P. Messer.

Engineer—Pardon S. Vars.

NEWPORT DAILY NEWS

Published every Morning—Sundays excepted, by

GEORGE T. HAMMOND,
At 123 Thames Street:

FRIDAY, JAN. 14, 1859.

LOCAL.

We understand that our worthy townsmen, the Hon. George B. Knowles, has returned from his recent visit at California, after an absence of five months. Mr. Knowles has represented this city in the State Senate for the past year, and we understand is a prominent candidate for Congress from this district. Newport is certainly entitled to the honor, and if Mr. K.'s claims are strongly urged, she may receive it.

The prayer meeting of the Newport Christian Association, in the 2d Baptist church last evening, was fully attended, by persons of both sexes. Among those present we noticed a liberal sprinkling of our resident merchants. There is one difficulty which those attending should labor to overcome: there is a lack of freedom among those who are not members of the denomination where the meetings are held. As the meetings are intended for all denominations of Christians, all, when there, stand upon equal footing, and should use the occasion as their own.

The "gulf" at the head of Swinburne's Wharf, is getting no better very fast. That its condition is not in the least improved by freezing, we found to our cost, when last evening we slipped on the ice there, and, most luckily for the city, escaped a broken leg. The difficulty, since the cold weather, extends clear across the street, and we learn that a horse was thrown there yesterday. If the city do not find quite soon that they have been saving at the spigot and wasting at the bung in refusing to make the necessary repairs at this point, they may thank their lucky stars.

The weather had moderated, yesterday afternoon, to 30 degrees below zero—two degrees only below freezing. The wind at 4 o'clock yesterday, was a light breeze from the south-west, with scattering clouds. No permanent ice had formed in the harbor, and unless driftice should come down from above, lodge here and congeal, no fears need be entertained of navigation being obstructed here.

Crimes and Casualties.

EXECUTION OF A MURDERER.—James McMahon was executed Wednesday at Newark N.J., for the murder of his sister-in-law some months since. The execution was strictly private, but few persons being present as witnesses. The murderer made no confession.

Gov. Morgan advocates the removal of the Quarantine establishment away from Staten Island, though he does not seem quite clear where it is to go to. He is also in favor of the enactment of a Registry law for the purity and security of the ballot-box. But, how much support he will find for his recommendations, in the Legislature, is yet to be seen. If the Quarantine is to be removed—and we are not sure but what it ought to be—we hope Ray Tammick and his gang of incendiaries will first be brought to conviction; punishment; that is, made to pay for the three or four hundred thousand dollars worth of property which they destroyed, and then sent to State Prison for good long terms, all round.

Two persons lost their lives by burning in Brooklyn, N. Y., Wednesday, both from their clothing taking fire—one a servant girl 21 years of age, and the other a child of 5 years.

A disconsolate German, named Christopher Strisburger, in St. Louis, hung himself for love, a short time since, leaving behind him a letter saying that his body might be forwarded as a Christmas present to the fair maiden who refused to favor his suit.

Miscellaneous Items.

CALIFORNIA NEWS BY THE MOSES TAYLOR.—The news from California by this arrival is not important, or of any special interest. Markets in San Francisco were depressed and quite inactive, with heavy stocks. Weather favorable for mining operations, but receipts of gold dust continue light. Money abundant and in rather better demand. Barque Tonawanda, owned in San Francisco, was lost 4th December on Humboldt Bar. Cargo of lumber saved. Edward Pollock, an editor and poet of some merit, died in a fit at San Francisco on the 13th inst. He was a native of Philadelphia. The gold exports from San Francisco for the current year up to Dec. 20, were nearly forty-eight millions. George Penn Johnson, indicted for killing Mr. Furgerson in a duel, has been acquitted. The weather in California had been quite cold, and snow had fallen to the depth in some places of three feet. Gen. Keenan, U. S. Consul at Hong Kong, left San Francisco on the 17th for China to resume his duties there. Dates from British Columbia as to Dec. 11, Mining on Fraser river improving, but weather very inclement, and provisions scarce and dear. Gov. Douglas has authorized a levy of certain duties on goods imported into British Columbia. Merchandise generally is charged ten per cent, but Victoria is declared a free port, and no duties are charged on goods entered for Vancouver Island. There had been a futile attempt at revolution in Bogota, New Granada, and another was projected in the State of Caucasia. The frigate Merrimac and sloop-of-war Decatur were at Balboa, Nicaragua, and the St. Marys at Guayaquil. Dates to Nov. 30, and Callao Dec. 12. The loss by the recent fire at Valparaiso are estimated at three millions. The Mecklenburg ship Triton, from Glasgow for California, bounded off Cape Horn Oct. 30; crew picked up by brig Manlius, bound to California. Danish brig Björn, from Newcastle for Valparaiso bounded off the Cape Oct. 28; crew saved by Br. brig Esperance.

Political.

Senator Fessenden, of Maine, was elected to another term, Tuesday, 11th.

Dr. Williamson, Surgeon in the Navy, was attacked with apoplexy at Norfolk, Tuesday. There are no hopes of his recovery.

Hor. Henry Wilson is re-elected Senator from Massachusetts, receiving in the House of Representatives, Wednesday, 89 votes

against 25 for Caleb Cushing, and 11 for all others.

Fires.

The large tannery of William Pegget & Co., in Elmira, N. Y., was burnt Tues-

day noon. The building with its contents was entirely destroyed. Loss \$3000.

A cotton factory near Augusta, Ga., was burnt Tuesday afternoon. No insurance.

Personal.

Judson J. Hutchinson, a member of the renowned Hutchinson family of singers, died at Lynn, Mass., Tuesday evening, 11th.

Six religious papers, published in Boston have agreed to charge half a cent a word for publishing all appeals for "general benevolent objects."

Religious.

The Annuel Meeting of Protection Company No. 5, the following officers were elected for the year ensuing:

Foreman—John C. Stoddard.

1st Assistant—Solomon T. Hubbard.

2d do.—William A. Vickery.

Orderly—Lewis L. Simons.

Clerk—Thomas P. Messer.

Engineer—Pardon S. Vars.

Deaths.

Bark Calcutta, (of Boston) Hawes, from Madras for Medina, was at Gibraltar 1811, having put in 1812, with loss of life.

STEAM ENGINE,
Is kept constantly running,

SOFT AND HARD WOOD PLANING SAWING, CARVING & TURNING

In all articles will be executed with neatness and dispatch. They would also all the attention of the public to their

ANTIQUE FURNITURE
Of which they have made large quantities during the past few years, and are still engaged in its manufacture.

The Messrs. Hazard are satisfied that with their Improved Facilities

they can furnish every article in their line cheap enough to make an object to ship their goods to the larger cities, and certainly articles of their manufacture have always given general satisfaction wherever they have been sent.

Newport, Feb. 20, 1858.

Improved Fire and Water Proof Felt and Composition Roofs.

The subscriber would respectfully call the attention of persons building, or about to build, to his new composition, which they have used to the entire satisfaction of many persons in this community who have lately put roofs upon us, as well as new buildings of every description. His crews have been prominently employed by Architects, Builders, and others who have a knowledge of their merits, to be of greater durability, and to be possessed of heat and insulating properties to an extent beyond any and now in use.

The material used in these roofs are composed of two parts—namely, a thin layer of glass, and a thick layer of composition.
